STUDENT REVIEW

FREE CHAPEL COLLEGE REVIEW SHEETS are intended to help each student identify specified areas in which they are excelling, as well the areas that need improvement.

Each student will receive an individual review at the end of each semester.

These review sheets should be completed in private by the practicum leader / faculty member for each student within their practicum.

Once review sheets are complete, they should be submitted to the Director of Administrative Services, who will then send them directly to the student via email. Upon receipt of their review, students may request a time to meet with the FC faculty member who has completed the review, as well as the College Director to gain further insight on the results of their personalized review.

These reviews will take place at the end of each semester with the intent to provide each student and their guardian with evidential progress via metric application.

The goal is to show comparative results between a student's first and final review.
